

E-Rate Milestones

To help you manage the process and stay ahead of E-Rate deadlines, follow this timeline.

E-Rate funding year spans July 1 - June 30

Technology built for K-12 schools and libraries

At Cisco Meraki, we understand the importance of providing IT teams with reliable, secure networking solutions to connect students, teachers, and schools. Our cloud-managed infrastructure and technology provides schools with a way to close the digital divide, expand access to education, and lay the foundation for more inclusive and collaborative learning environments.

We are dedicated to providing more affordable ways to accomplish these goals for K-12 schools and libraries through the E-Rate program.

E-Rate funding can be used to purchase the following hardware and licensing:

Meraki MR access points

Deliver superior performance in high-density classrooms and spaces with reliable Wi-Fi.

Meraki MS switches

Reduce time spent on operations and troubleshooting with complete network visibility and control.

Meraki MX SD-WAN and security appliances

Secure school and library networks while keeping data protected.
